General Instructions for individual assembly assignments.

1) Each student uploads the deliverables to ELC.
2) Each folder under the /Assembly folder is an assignment.
3) Upload one document per assignment (folder).
4) Each program in the folder will be a **Bold Heading** or new page in your document.
5) Each program will have deliverables in comments at the top of the program.
6) Copy the deliverables from the program and respond in the document after each deliverable.
7) Include your final program in your document at the end of each program's deliverables.
8) Documents should be .txt or .pdf only and include your name and the folder named assignment with date on the first page.
9) You will have a 3-5 quick quiz on the due date of each assignment on ELC so be ready.
